

THIRD-PARTY ORIGINATORS (TPO) OVERSIGHT PROGRAM

WHY US?

It's imperative that lenders who work with TPOs properly vet them first. The Vendorly® Oversight Platform is an award-winning* solution with a TPO program that helps you reduce risks and increase productivity by helping you evaluate them faster and easier.

Financial institutions and mortgage lenders are using it to navigate the complex vetting process and create a secure central repository for documentation — all in one place. You should, too. It gives you a more holistic approach to help make better decisions when choosing a TPO.

HOW WE HELP

Reduce risks and increase productivity by vetting TPOs faster and easier.

- 📌 Avoid possible risks by vetting qualified TPOs.
- 📌 Save time by accessing a single source of secure information rather than multiple sites.
- 📌 Increase productivity and save administrative costs by letting us do the heavy research for you.

- 📌 Customize the TPO program to meet your approval and compliance requirements.
- 📌 Streamline the vetting process with our easy-to-use integrated automated technology.
- 📌 Qualify TPOs faster by sending and tracking in-depth electronic questionnaire packages.
