

EFFICIENT AND SCALABLE WORKFORCE

Trelix™ helps you improve loan process efficiency and reduce risks in an increasingly complex environment. Our scalable workforce provides additional resources to assist key areas in your mortgage fulfillment platform — loan setup, loan processing, underwriting, quality control, closing and post-closing review. Our culture balances the need for effective compliance and risk management with solutions key to help maintaining your industry reputation for loan quality and an outstanding customer experience.

HOW WE HELP

Our industry expertise and consultative approach provides powerful benefits. Here's how.

STAFF AUGMENTATION

We provide the flexibility which helps your company to establish a stable workforce better insulated from the variability and volume of the mortgage industry. Trelix becomes your resource for staffing to industry peaks while maintaining the expertise when volume recedes. We are available to support end-to-end services either comprehensively or individually: **Loan Setup, Processing*, Underwriting*, Quality Control Review, Closing, Post-Closing, and Loan Due Diligence.**

COMPETITIVE LOAN COSTS

Variable pricing options provide the ability to forecast and manage fulfillment services costs.

INCREASING EMPLOYEE PRODUCTIVITY

Remove the non-customer-facing task from your employees' daily routines, enabling them to spend more time counseling and providing guidelines for your customers.

RECRUITING

Trelix helps reducing the investments required to scale your workforce.

UNDERWRITING* AND LOAN QUALITY

Our attention to detail and investments in training help mitigating your risk against repurchases and unsaleable loans.

CERTIFIED LOAN PROTECTION

Get the loan security and business confidence you need with CastleLine® Insurance Services.
